Verilog Example Code of Reduction Operators

Cost control and reduction refers to the efforts business managers make to monitor, evaluate, and trim expenditures. These efforts might be part of a formal, company-wide program or might be ...

Home []

The Reduce feature lets you automatically reduce the number of polygons in a mesh by a percentage of the overall polygon count, a target number of vertices, or a target number of triangles that you specify. The Reduce feature also attempts to retain the original shape as part of the reduction process. Reducing the number of polygons is useful when you need to reduce the overall polygon count ...
